

Water Districts 37 & 37M Goals for 2010 Delivery Season

- 1.) Updating District Decree Books
 - Finish upper valley decree books (both 37 & 37M) as SRBA nears completion (Best estimate 2 years)
- 2.) Improve GIS capabilities
 - In cooperation with IDWR and deputy watermasters, finish canal layer by spring 2010
 - As SRBA finishes, integrate delivery records into an Arcmap layer (Long-Term 5 year)
- 3.) Continue off-season delivery records
 - Sun Valley Snow making
 - Dietrich Canal stockwater delivery
 - Rinker 11 aesthetic delivery
- 4.) Improve management of Non-consumptive deliveries
 - Install data loggers in Gimlet 9, Aspen Lakes, and Rinker 11-11A (6 total)
- 5.) Continue to improve management of deliveries
 - Coordinate with Above Magic Deputy(ies) to establish ride boundaries (before April 2010)
 - Continue to coordinate with IDWR to identify surface water rights within the Basin that should be added to the districts' assessment lists.
- 6.) Continue to cooperate with IDWR in the development of a groundwater measurement district.
- 7.) Watermaster to measure the following river stations on a bi-weekly basis:
 - Little Wood River at Richfield
 - Big Wood River at Gooding
 - Little Wood River at Gooding
 - Little Wood River above Shoshone
 - Little Wood River in Shoshone

8.) Develop a yearly meeting schedule to insure consistency in planning.

- 2nd Monday in January – Annual Meeting
- 2nd Tuesday in February – Audit Presentation
- 2nd Tuesday in April – Legacy Project donation evaluations
- 2nd Tuesday in September – Budget planning
- 2nd Tuesday in December – Finalize Budget and Annual Meeting plan
